

Eileen Cooper
- COLLABORATIONS

March 2012

The Women in Art season continued by celebrating the recent appointment of Eileen Cooper as the Keeper of the RA – the first female in its 240 year history. Eileen selected a small number of her colleagues to show alongside her in the gallery. Once again, we had an opportunity to explore new techniques of creative output at the gallery - particularly pertinent in light of Hockney's modern-day portrayal of landscape at his 'blockbuster' exhibition. We were delighted that Eileen and (most of) her colleagues joined us to launch her exhibition.
